

NAMM tradex'11 / craftex'11

In association with

Excel London 15th. -17th.March 2011

The Association is pleased to announce that it will be developing a 'NAMM Village' within the bounds of the international Natural Stone Show next year. Space within this 'village' will be strictly limited and available to all members, Wholesale, Company Associate etc. Whilst the space is based on a 'shell scheme' in minimum 9mtr.² units, space only provision will be available. The NAMM village will be both collectively and independently promoted and clearly defined by colour and signage as an area dedicated to memorial masonry and its associated industries.

NAMM's stand will incorporate: craftex'11, 'NAMM Training', the RQMF and a consultation area dedicated to the Services Personnel & Veterans Agency (SPVA) for whom NAMM are consultants. SPVA staff will be available to discuss tendering procedures for SPVA (MoD) contracts.

Space within the Natural Stone Show itself is largely sold out indicating tremendous interest in the potential of this show. The last 'Stone Show' achieved a foot-fall of between 5 & 6000 visitors, it is fully expected that this number will be exceeded next year.

Those interested in joining NAMM on this exciting venture should contact NAMM Head Office to obtain brochures, information on space availability and pricing; space and visitor application forms.
